

## PAY DEARLY FOR NEW TERRITORY

Great Loss For Advantage Gained in Luzon.

ARMY IN PHILIPPINES IS A HEAVY BURDEN.

In the Largest Island Alone the Cost Has Been Sixty-Three Million Dollars and the Lives of 664 Men, Besides Sixty Five Hundred Wounded and as Many Times That Number Made Invalids—United States Controls Less Territory Than Spain Did When Americans Took Possession.

New York, June 22.—[Special]—A World's Washington dispatch says: Sixty-three million dollars and the lives of 664 men is the price paid thus far for the advantage gained in Luzon, besides 6,500 soldiers wounded and as many times that number made invalids.

It is declared that the army in the Philippines is costing two hundred and eight thousand dollars a day now and will exceed three hundred thousand dollars when the additional troops arrive.

The United States controls considerable less territory in the Philippines than Spain did when the Americans took possession.

The expense of subduing the islands, including the twenty million dollars paid to Spain, will be at least two hundred millions.

Gen. Wheeler May Visit Philippines.

Washington, June 22.—[Special]—Gen. Wheeler will probably be ordered to the Philippines as soon as Secretary Alger returns to Washington.

He will not go there, however, to take part in the military operations, but merely to inspect the army under Gen. Otis.

Hospital Ship Leaves For Home.

Manila, June 22.—[Special]—The hospital ship Relief left for San Francisco this morning with two hundred and sixty six sick soldiers.

Manila, June 22.—The insurgent army has taken to the swamps and hills beyond Imus. The largest force is supposed to be in the neighborhood of San Francisco de Malabon, holding a position more toward the lake or toward the coast, according as exigencies demand.

The heavy rains that fall nightly make campaigning uncomfortable. The roads are still good, but the rice fields adjoining them are pools of water.

The Filipinos will not fight unless they can meet our troops in positions most advantageous to themselves or take our reconnoitering bodies in ambush. It is impossible to learn what effect the recent defeat has had upon their leaders. This should be disheartening, for they had boasted that the Americans could never conquer the province of Cavite, Aguinaldo's home country, where he always worsted the Spaniards.

Gen. Otis recently received a letter signed by native women of the province declaring that if all the men were killed the women would still keep up the fight against the Americans.

SAY GEN. OTIS NEEDS MORE MEN.

Better That His Present Force Is Not Adequate to End the War.

Washington, June 22.—Some officers of the war department are now predicting that Gen. Otis will have to be considerably re-enforced before he succeeds in bringing the rebellion in the Philippines to a close. While Gen. Otis is in an excellent position to know what the requirements of the service are, still some experienced officers here contend that in their opinion he has greatly underestimated the number of troops necessary to bring the campaign to a speedy close. It is their impression that the war is likely to run on in this way indefinitely.

Nothing can be done in the way of organizing more troops for Gen. Otis until the president returns. One thing is practically certain, if it is necessary to send more troops to the Philippines, volunteers will be recruited as in the regular army, and not taken from the different states by regiments. So far as practicable the men will be chosen from volunteers who have seen active service.

Immense Force Is Necessary.

San Francisco, Cal., June 22.—Dr. Charles A. McQuesten, who was on the staff of Gen. E. S. Otis, and who was health officer at Manila, has returned home invalided by the climate.

Capt. McQuesten is of the opinion that it will take from 100,000 to 150,000 soldiers to properly subdue and hold the islands. He also says that the peace commission was an absolute failure and that its work from the start was without effect. He strongly supports the military government of the islands, except that he thinks more men will be necessary than has been estimated.

Miles Will Not Relieve Otis.

Washington, June 22.—There is absolutely no truth in the report that Gen. Miles has made application for or

seeks assignment to the command of the army in the Philippines. Capt. Francis Michler, aid-de-camp to Gen. Miles, said that Gen. Miles had not sought the command and that no intimation had passed through the office of the commanding general that he would be designated to succeed or supersede Gen. Otis.

Tell of American Weakness. Madrid, June 22.—Dispatches from Hongkong received in Madrid describe the American situation in the Philippines, while not critical, as greatly weakened through loss and disability from disease. The urgent need of a large number of fresh troops is emphasized.

Wheaton Returns to Imus. Manila, June 22.—Gen. Wheaton's Perez das Marinas expedition has returned to Imus. The enemy, who had scattered, are collecting at San Francisco de Malabon.

## FRANCE IS RISKING A WAR.

The Dreyfus Case May Lead to a Serious Conflict.

London, June 22.—The Vienna correspondent of the Daily Telegraph says:

"The Austrian war office has learned that the evidence of Casimir-Perier upon the Dreyfus trial will be startling. It will be shown that he holds the key to the affair, which has hitherto been withheld in order to prevent a serious conflict between France and Germany."

"Casimir-Perier will depose that a German official of high social and military rank confidentially gave the French government the information which led to the arrest of Dreyfus, but stipulated for silence as to the informant's name. Now Casimir-Perier will declare all."

## CLEVELAND CARS ARE ASSAILED.

Cleveland, Ohio, June 22.—There were several riots in the city Wednesday engineered by sympathizers of the strike. The lawlessness, however, was held in check to an extent on account of pending peace negotiations between company officials and the strikers, and the trouble was necessarily less serious in nature than were the demonstrations of Tuesday. Early in the morning Supt. Douglass gave out a statement declaring that the riot of Tuesday night, when a mob attacked the Pearl street car barns, resulted in \$10,000 worth of damages to the company's property.

## LOSSES TO CUBAN ARMY.

Havana, June 22.—Col. Carlos Cespedes says that the pay-rolls which were originally turned over to Gen. Brooke failed to show anything like the true strength of the Cuban army. This was partly due to the fact that they contained only the names of those living in 1898. According to his calculations, no fewer than 5,000 soldiers were killed outright or fatally wounded in skirmishes or battles.

## WINDOW GLASS PLANTS CLOSE.

Hartford City, Ind., June 22.—At midnight last night the co-operative glass plants of the United States closed down. From now until the wage scale is signed for the next fire and the time set for resuming no window glass will be made in this country. Just when that will be can only be conjectured, but it is thought that it will be not less than six months.

## CLASS ALL AS AMERICANS.

Madrid, June 22.—The minister of war, Lieut.-Gen. ## TREASURY DEFICIT SMALL.

Washington, June 22.—Secretary Gage now estimates that the deficit of the treasury department for the fiscal year, which will end June 30, will be less than \$100,000,000, against his estimated deficit of \$112,000,000. Others who have studied the figures think that the deficit will be less than \$98,000,000.

His instructions are to have a dray for his baggage, and he will ride on the dray. Debs will have no committee to introduce him or close the meeting and will not allow any of the labor leaders to sit as a committee upon the stage with him.

## A CIRCUS IN STRAITS.

Racine, Wis., June 22.—Financial difficulties caused the circus, conducted by Howe & Cushing, to be stranded here yesterday. An effort was made to adjust the troubles and proceed to Milwaukee. Just previous to the performance here, the chief of police of Kenosha attached the circus property on an unpaid board bill of \$58. The account was settled. Then the Racine sheriff attached the ticket wagon for feed and board bills amounting to \$22. The musicians quit work because they had not been paid. Next the daughter of the man who owns the elephant got into an altercation with the keeper of the animal, and whereupon he refused to have any more to do with the beast. A new man was placed in charge of the elephant, but the animal threw him a distance of fifty feet. He was picked up with a broken arm and other bruises.

## HISTORICAL FIELD MEETING.

Green Bay, Wis., June 22.—Arrangements for the field meeting of the Wisconsin State Historical society in Green Bay were outlined at the conference between the local managers and R. G. ## IDOLS IN DISGRACE.

In the regions of famine and drought in India last year the famine-stricken crowds appealed to their gods for aid. In Aurangabad, in Western India, the priests were paid for prayers for rain to be continued for many days, with the usual accompaniments of processions and much noise. When days and weeks passed and no rain fell the people of the district were furious against their gods. In some places they daubed the idols with mud and blocked the approaches to the temples with masses of thorns. In other places they made pools in the temples, into which they threw their idols, that they might shiver in water, as "a penalty for keeping the fields dry." "The people sit in gross darkness."—London Presbyterian.

## REMODELING FAIRFIELD CHURCH

Many Interior and Exterior Improvements Being Made

Fairfield, June 22.—For the past few weeks Rev. I. Johnson has been very busy remodeling the M. E. church. By moving the ball partition a pleasant social room is given, and an entrance built on the south side furnishes the vestibule. The interior of the church has been freshly papered, painted and carpeted, and new pews replace the old ones, thus materially transforming the building. Over \$400 has been expended and much credit is due both the pastor and the people of the vicinity for their effort.

## NORCROSS GAVE ADDRESS

Presided at the Beloit College Alumni Banquet

At the Beloit college alumni banquet Tuesday evening John V. Norcross, son of Captain and Mrs. Phry Norcross, of this city, gave the address of the evening. The Beloit News says:

The alumni address by John V. Norcross, '88, a Chicago attorney, was a calm, clear and interesting statement of the question at issue with regard to trusts. Mr. Norcross did not make a vigorous denunciation of trusts but on the contrary he declared they were the outgrowth of national trade conditions and were as sure to remain as corporations or any other organization of modern industry. The question therefore is not how to get rid of them, but how to deal with them as permanent factors in the industrial world. The best effects, he declared, would be produced by those states which enacted legislation not with intent to do away with trusts altogether as if they were illegal, but with the purpose to find out the best manner of dealing with them.

THE WEEKLY CROP BULLETIN

Heavy Rains and Hail Result in Damage to Crops.

The week as a whole was considerably cooler than last week, especially along the northern border, where the average temperature was less than 60 degrees.

Remarkably severe local storms accompanied by high winds, heavy rains, and hail, were general throughout the central and western portions of the state during the early part of the week, and resulted to some damage to crops on low lands. The tornadoes which passed through St. Croix, Polk and Barron counties, caused great damage to property and the loss of many lives, but practically no damage to crops except in the immediate path of the tornado.

The rains have been excessive in many localities in the central and western counties, amounting to from three to five inches for the week.

The heavy and continued rains have prevented the cultivation of corn, and the crop, except in the southern portion of the state, is becoming very weedy.

Generally the crop is in good condition, although in some sections there has been too much rain for the best results.

Winter wheat and rye are headed out well, and in some sections are beginning to ripen; good crops are promised.

The mayor stated that the meeting was to discuss the matter of a joint track on North River street.

Remarks were made by representatives of the railway companies; by T. S. Nolan and William G. Heller for the Janesville Cotton Mills; L. B. Carle, T. O. Howe for the Rock River Cotton Company, and David K. Jeffris for the Jeffris Company.

The representatives of the railway stated that they thought the scheme was not a practical one, while the representative of the cotton mills said that if the track was removed to the east side of the street, that coal could not be put into the bins by a shoot and it would necessitate hauling it, and if the tracks were laid on the east side it would be more of a damage to the shafting which crosses the street.

The Rock River Cotton Mills Company, L. B. Carle and D. K. Jeffris were likewise opposed to the ordinance, preferring that the tracks remain as they are at present.

The railway representatives stated that they were unable to come to any understanding as they had received no instructions from headquarters.

The committee will make its report at the regular meeting of the common council to be held next Monday night.

The proposed ordinance provides that the spur tracks now on North River street be declared a nuisance, and that the two companies be granted the right to construct, maintain and operate a joint spur track of standard gauge with switches, etc., to be constructed along the easterly side of North River street and as near to the mill race as the operation of the cars will permit, and shall not extend south of the north line of the city hall, nor north of a point 150 feet south from the south line of Ravine street. Also the companies shall lay the track so that the top of the rails shall correspond to the present grade of the street, and shall cause the space between the rails and one foot therefrom outside to be paved or plankled to the level of the street, and keep the same in good condition.

In case either company shall unreasonably obstruct Race street with cars or otherwise at the place where the spur track shall be laid across Race street, they shall be liable to prosecution and upon conviction pay a penalty of not more than \$100 nor less than \$10.

The city reserves the right to make all such reasonable rules, regulations and requirements as it may deem proper.

In case any person or corporation shall claim to be damaged by reason of the construction, maintenance and operation of the spur track nothing in the ordinance shall be construed as interfering with the rights of such person or corporation to sue for and recover the same.

## DANCING PARTY AT WEST PORTER

Seventy-Five Couple Participate—News of a Personal Nature.

West Porter, June 22—About one hundred and fifty people tripped the light fantastic toe at the Porter band hall last Thursday evening, from nine o'clock in the evening until three the next morning. Tuckwood's orchestra furnished excellent music. This was the tenth party given, and all have been well attended and pleasant affairs. Some from Porter attended the social given at Union, Wednesday evening. Miss Nina Jones of Evansville, was the guest of her sister, Letta, who had been teaching the Wilder school, a few days last week. The Latter Day Saints from Porter, attended conference at Delavan, Saturday and Sunday. Jesse Earle of Janesville, attended the dance here, Thursday night, and stayed over until Sunday. Mr. and Mrs. A. Eldred of Albany, were guests at W. M. Tolles', Thursday evening. School closed in the Forest Academy last week, with a magic lantern entertainment, Friday afternoon. Miss Dell Tolles was a guest at C. C. Morrison's, Wednesday. Most of the farmers are in the midst of tobacco setting. George Shaw was seen in this vicinity last Sunday, with his new buggy.

La Prairie

La Prairie, June 22—After reading the accounts of the severe storms in the surrounding country and the serious damage done, the people of this vicinity consider themselves very fortunate. John Phillips of Chicago, and Bert Mackelroy of Beloit, have been home on a business trip. Darby Osen took home a fine new carriage a few days ago. A union school picnic was held in Lowry's grove last Friday. The teachers of the schools were Misses Katie Crowley, Jennie Eddington and Inez Arnold. After partaking of a bountiful dinner the guests were invited to listen to a well rendered literary program by each school, followed by field day exercises. It was an enjoyable affair from dawn until dark. A very enjoyable dancing party was given at the home of Mr. and Mrs. Kennebec last Wednesday evening. Runaways seem to be quite a fad. Jesse Babcock's team ran away last week resulting in the wreck of a milk wagon. Assessor D. Q. Stark is making his annual calls. Miss Ruby Gleason is at home from Shopiere spending her summer vacation. Mr. and Mrs. Briggs of Chicago, and J. T. Wright of Janesville, gave a very interesting talk at the Grange hall last Sunday. L. M. B. S. meeting next Thursday afternoon.

## ELKS PARADE IN ST. LOUIS.

Grand Lodge Will Meet Next Year in Atlantic City.

St. Louis, Mo., June 22.—The Elks' parade was the feature of the annual reunion of the order Wednesday. Fully 4,000 members of the order were in line, and of the 300 lodges represented no two wore the same uniform. The parade was reviewed by an immense throng.

The Grand lodge, whose morning session had been abandoned because of the parade, went into secret session again in the afternoon. The attendance is the largest in the history of the order, 696 qualified delegates having registered their credentials. The most important business was the selection of the next place of meeting. Milwaukee and Atlantic City were the leading candidates and Atlantic City won by a comfortable majority.

The constitution committee reported some important changes in the fundamental law of the order. The new constitution will be submitted to a vote of the subordinate lodges, and, if ratified, will go into operation Jan. 1, 1900. Action was not finally taken on the report.

## THE CZAR'S PLAN MAY FAIL.

Arrest of Death-Dealing Inventions Declared Impracticable.

The Hague, June 22.—The disarmament committee Wednesday began the work of throwing overboard the czar's disarmament proposals. The committee has assailed first the easiest part of its task, skipping over the proposal to arrest armaments and limit military and naval expenditures and rejecting as impracticable Count Mouravieff's suggestions looking toward the arrest of death-dealing inventions.

The arbitration committee, upon which has fallen the real work of the conference, has resumed its sessions. Dr. Zorn, the German delegate who went to Berlin for new instructions, attending. This fact is taken to imply a change of front on the part of the Kaiser.

Examine the new oil cloth on the kitchen floor; its color and gloss are being destroyed and you may see where a cake of common soap fresh from the hot water in the scrubbing bucket has been laid on it for a moment, the free alkali having eaten an impression of the cake into the bright colors.

A more careful examination will show small "pin holes" here and there where the alkali has cut through the surface to soak into and gradually weaken the whole floor covering.

## HERO FROM MANILA NOW VISITING HERE

FRED C. MULLEN OF DAKOTA  
COMPANY.

Says Life in the Philippines Is Not As Pleasant as One Would Think—Manila an Uninteresting City With But Few Good Buildings—Injury Caused His Discharge.

Frederick C. Mullen of Brickenridge, Minn., and a member of Company I, First North Dakota Volunteers, who are now serving in the Philippines, is visiting in the city, the guest of Mr. and Mrs. William H. Cornean, 104 North Bluff street.

Mr. Mullen has been serving as a member of his company at Manila, and comes direct from that far-away land with many interesting stories.

To a Gazette representative last evening Mr. Mullen said: "After joining Company I of the North Dakota regiment, we left for San Francisco and there received a most hearty welcome and good treatment. On June 28 of last year, we embarked for Manila, amid the cheers of thousands and the blowing of hundreds of whistles. The voyage was a pleasant one in spite of hot weather, and the accommodations on the boat were all that could be desired, especially when we took into consideration the fact that the government was doing its best.

"Our first landing after leaving America was at Honolulu and there we were met at the docks by one of the finest bands in the world. They played American airs and it seemed as though the citizens of the city could not do enough to make it pleasant for us. After remaining there two days and two nights we left Manila, arriving at Cavite on the evening of July 31. We were then transferred to new Manila, which is just across the bay.

"We were immediately put to work fighting Spaniards and for several days prior to the capture of Manila, our company saw service in the trenches. After the capture of Manila we were given outpost duty to perform.

"Manila is an uninteresting city, the streets being narrow and the average building low and poorly constructed. The streets are crowded with people from early until late. The greater portion of the population consists of Japanese and Chinese.

"Jewelry stores are to be found on all the principal streets and if there is a class of goods the Filipinos like to buy it is gay jewelry. Spanish money is used. The greater portion of American boys now in the service are sick of military life and longing to return home." Mr. Mullen received an honorable discharge after being injured as the result of heavy lifting. He has two brothers serving in the same company, the youngest being but eighteen years of age and who was recently appointed a sharpshooter for valuable service rendered.

## CLOSES EVANSVILLE HOUSE

George H. Rumrill's tobacco warehouse at Evansville closed for the season Thursday, after having completed the largest season's work ever recorded in any one tobacco warehouse, according to the report of its foreman, Mr. Mabie, 2,000 cases being the result of this season's work. One thousand cases is considered a good season's work in one warehouse. The employees expect to close the season's work with some kind of a social gathering in the assorting rooms, Saturday.

## CAUGHT BY CUPID.

Shekey-Curler.

At the country residence of Mr. and Mrs. Lattie E. Curler, one mile south of the State School for the Blind, yesterday afternoon at 3 o'clock, was solemnized the marriage of Miss Nattie G. Curler, the only daughter of the host and hostess, and Joseph Shekey, of this city. Rev. A. C. Kempton, pastor of the Baptist church, pronounced the words that united the happy couple, while the bride and groom stood beneath a pretty canopy of grape vines. The bride and groom were attended by Miss Cora Anderson and Eugene Curler. The bride wore a pretty gown of pale blue, while the bridesmaid was attired in pink. The affair was very quiet, only about thirty relatives witnessing the ceremony. After extending best wishes and congratulations the guests were seated at tables and enjoyed a wedding luncheon served by Misses Imogene McDonald and Nellie M. Hubbard, Arthur Anderson and Roy Curler, under the direction of Mrs. Louise Bowerman, who was caterer for the occasion. The tables were handsomely decorated with ferns and white roses. The bride had resided in this city until two years ago. She possesses a host of friends; won by her charming and lady-like manners. The groom is the only son of A. H. Shekey, of this city, and is a most exemplary young man. He is a locomotive engineer in the employ of the Chicago & Northwestern Railway company. Mr. and Mrs. Shekey left last evening for Chicago where they will spend their honeymoon. The bride and groom have many friends in this city who wish them all the happiness the most sanguine could anticipate.

## UPPER COTTON MILL HAS RESUMED WORK

WILL SOON EMPLOY HUNDRED HANDS.

Machinery Has Failed to Make Itself Heard For Nearly Two Years—Will Mean Much For the City By Its Resuming—Cotton Market Has Improved of Late.

Stockholders of the Janesville Cotton Mills have decided to put their North Franklin street mill in operation and already the hum of machinery is heard there.

A dozen hands have been put to work and by the end of a month this force will be increased to a hundred.

The upper mill has been idle for nearly two years and that it is soon to be in full blast will be good news to the entire community.

During the past two years competition has been so close in the cotton manufacturing line that local stockholders deemed it an unwise move to operate both the local mills and for this reason the upper mill was closed.

Now the market shows additional strength and cotton cloth is in fair demand at three and one-fourth to three and one-half cents a yard.

When the upper mill closed many of the hands left the city, finding work in mills at Aurora, Ill., and Beaver Dam, Wisconsin, but now that the mill is again to resume, many have expressed a desire to return.

The majority of those employed are girls and as they are paid good wages it means much to local merchants.

The Janesville Cotton Mill was incorporated in 1886 with a capital stock of \$150,000. George G. Sutherland is president, W. H. Palmer, vice president and W. G. Heller, secretary and treasurer.

## Monster Chorus.

Frank Damrosch has conceived the idea of welcoming Admiral Dewey with a monster chorus. Two thousand singers assembled at Cooper Union, in New York city, last week, to hear the great conductor's views on the subject. He said that even as no modern nation could boast of such a hero as the admiral, so ought our demonstrations on his arrival to eclipse anything of the kind attempted in modern times. All great souls love music. The man who stood unmoved when the fleet stole by Cavite could hardly restrain a thrill if 2,000 admiring voices struck up "See the Conquering Hero Comes," or the hallelujah chorus. The proposal was greeted with great applause, and many have volunteered their services. No definite action has yet been taken, but there is little doubt that this, with all other schemes to honor Dewey so far advanced, will be eagerly pushed forward.

## BIG FIRE CRACKERS MEAN SURE DEATH

CONTAIN DYNAMITE AND SHOULD NOT BE USED.

Question Is For the Common Council to Decide—Cannon Crackers Are Also Dangerous to Both User and Every-one Else—Action Is Taken in Chicago.

On the approach of the Fourth of July one matter should be looked after by the police of the city with care. This is the sale of giant firecrackers, which contain dynamite. These inventions are not only peace disturbers and ear-splitting contrivances, but are positively dangerous.

The question is an easy one to solve. The chief of police has the power, with or without instructions from the council, to prohibit the sale of these goods under penalty and by notifying the dealers and seeing that the notification is observed the matter will be taken at the root. The city of Chicago has done so and the merchants have canceled their orders for the goods and the manufacturers have begun shipping them to the outside towns. What is bad for Chicago is certainly bad for Janesville.

There is no objection to Young America or Old America, either, celebrating the day in a fitting style and making all the noise necessary. The old-style crackers in all sizes are all that is required to make a large amount of noise and thus make known to the world their patriotism. But these modern firecrackers are devilish. They contain a small quantity of dynamite, and so dangerous are they that a caution is printed on each, warning user not to hold in the hand after lighting.

Crackers are now for sale in the stores here at a dollar each any one of which is almost large enough to kill an elephant.

## FORMER SPEAKERS OF CONGRESS

Of the 33, From Muhlenberg to  
Reed, Four Were Great.

BY JOHN F. WILLOUGHBY.

HERE have been 33 speakers of the house of representatives. General Henderson, if a political earthquake does not occur, will be the thirty-fourth. Of the 33 who have gone before, the names of only four will be recalled by the average man. These four are Henry Clay, James G. Blaine, Samuel J. Randall and Thomas B. Reed.

Each one of this great quartet of speakers left his individual impress on congress and United States history. Many of the others, whose names have been forgotten, were able men, but on the memory of the past their names do not stand out as do those of Clay, Blaine, Randall and Reed.

The first speaker of the house was Frederick A. C. Muhlenberg of Pennsylvania. He was a brother of Peter Muhlenberg, who at the beginning of the Revolution announced to his congregation of German Virginians at Woodstock from his pulpit at the close of a sermon:

"There is a time for all things—a time to preach and a time to pray—but there is also a time to fight, and that time has now come."

Suiting his action to his words, he threw off his gown and stood arrayed in the uniform of a Continental colonel, his commission having been given him by Washington.

Frederick Muhlenberg was speaker of the house in the First and Third congresses, and his brother was a member of the same house in both congresses.

The second speaker of the house was Jonathan Trumbull of Connecticut, son of that Jonathan Trumbull who was governor of Connecticut during the Revolution and was the chosen friend and counselor of Washington. In fact, the epithet "Brother Jonathan," now applied as a personification of the United States, owes its origin to Washington's habit of addressing Governor Trumbull and to the phrase he often used when perplexed:

"Let us hear what Brother Jonathan says."

Unless you have been a very careful student of the political history of your country the names of the speakers intervening between Trumbull and Clay will be wholly unfamiliar to you. There came in succession Jonathan Dayton of New Jersey, Theodore Sedgwick of Massachusetts, Nathaniel Macon of North Carolina and Joseph B. Varnum of Massachusetts.

The office of speaker was not so important during those early years of the republic as it is today, and the man who occupied the chair was often but little known.

"And who is James K. Polk?" sneeringly asked a Clay supporter after Polk had been nominated for president. His hearers, many of them, sincerely echoed the question. Yet Polk had already served two terms as speaker of the house of representatives.

It was not until the Twelfth congress that the first really great speaker appeared. This was Clay. He was the only man ever chosen speaker on the day he took his seat as a member of the house. He was elected oftener and served longer than any speaker before or since. His record will be a hard one to beat.

Henry Clay was the first man to give the office of speaker much of the potency it has today, and he was the first speaker who was also the leader of his party at the same time. His influence upon legislation was greater than that of any man who had preceded him. To

FREDERICK A. C. MUHLENBERG.  
[First speaker of congress.]

Clay, more than any man, was due the creation of the hostile feeling toward England which led to the war of 1812. Unlike the speaker in these days, Clay did not confine himself to the mere work of presiding, but left the chair and participated in the debate upon the floor of the house.

Following Clay, there were John W.

Taylor of New York, Philip P. Barbour and Andrew Stevenson of Virginia, John Bell of Tennessee and then James K. Polk.

James L. Orr of South Carolina was speaker of the house when his state seceded from the Union. Although he had opposed secession, he left congress and followed his people.

William Pennington of New Jersey was elected speaker of the Thirty-sixth congress after an eight weeks' contest. This was the contest in which John Sherman was the Republican nominee for speaker and came within three votes of being elected.

It was during this struggle that Thaddeus Stevens assured Mr. Sherman that he would vote for him until the crack of doom. When the rush to Pennington came about, Stevens was the leader in bringing about the change in candidates. Sherman went to him and said:

"Stevens, you said you would vote for me until the crack of doom."

"So I did, Sherman, so I did, but I thought I heard her crack."

The speaker of the first war congress was Galusha A. Grow of Pennsylvania. He was a man of ability, and would undoubtedly have continued in that office if he had been returned to the Thirty-eighth congress, but he was not. At the close of his services as speaker Grow received a unanimous vote of thanks, the first of the kind given to any speaker in many years.

Then came Schuyler Colfax of Indiana, who, after serving three terms as speaker, was elected vice president. Colfax was succeeded by the second great speaker, James G. Blaine. During his six years in the speakership Blaine achieved some of the most brilliant triumphs ever gained in that office. His knowledge of parliamentary law, his close acquaintance with the political history of the country and with the record of its statesmen, past and contemporaneous, his power as an

DAVID B. HENDERSON.

orator and his great personal popularity among men of all parties enabled him to add to the glories which he had gained by his six years' previous service in the house.

After Blaine came Randall, greatest of the Democratic speakers. He was the most influential man on his side of the house during the days of his speakership and for years afterward. During the excitement over the disputed count of presidential votes in the Hayes-Tilden contest, which occurred in the first year of his speakership, he contributed largely toward bringing about an orderly adjustment of the controversy.

J. Warren Keffer of Ohio and John G. Carlisle of Kentucky followed Randall and then began the long rule of the man from Maine who earned for himself the title of "czar."

There is no one who does not know that Reed was the first man to count a quorum, but perhaps some may have forgotten the epigram which marked the first application of his new rules. Speaker Reed had announced that a quorum was present when McCreary of Kentucky rose to ask:

"Did you count me, Mr. Speaker?"

Mr. Reed nodded impatiently.

"How do you know I am present?"

Insisted the Kentuckian.

"Does the gentleman deny that he is here?" drawled Reed, at which the house roared.

General Henderson will be the first speaker chosen from west of the Mississippi. Whether he is to be one of the great speakers who are remembered or one of the ordinary ones who are forgotten remains to be seen.

A Unique Fiddle. A violin manufactured during his leisure moments by Mr. Slaughter of Montrose, Mo., is unique in design and in the material from which it was constructed. The back of the instrument is cherry, from a table that Mr. Slaughter purchased from the Howard-Payne college more than 35 years ago, and is probably more than a century old. In the center of the back of the instrument he inserted 21 different pieces from the Holy Land, one being a grapevine that grew in the garden of Gethsemane.

Around the margin is set a row of small pieces of wood in the shape of diamonds. These little pieces of wood have been gathered from all over the civilized world, and Mr. Slaughter has been years in gathering them. In one end of the back is a horseshoe made of castor wood, and in the other end is the image of a rabbit carved in cherry, and there are in all over 150 different pieces of wood. The only tools Mr. Slaughter used were a pocketknife and a half inch chisel.—St. Louis Republic.

London, June 22.—The house of commons Wednesday voted £4,000,000 to be expended upon army works, refuge barracks, barracks and coaling stations.

Union Miners Told to Act.

Springfield, Ill., June 22.—President Mitchell of the United Mine Workers of America sent a general order to all places in Illinois where coal is being loaded for points in Arkansas and Indian Territory, where union miners are on strike, requesting union miners at those places not to load coal for territory where strikes exist.

Smelters to Resume Work.

Denver, Colo., June 22.—The announcement is made on reliable authority that the managers of the Elfers smelter at Pueblo and the Binet smelter at Leadville have been instructed by the trust officials to start their plants at once, and the other plants will resume in a few days.

NOTICED THIS BEFORE

You Probably Have and May Have Spoken About It.

The reader of this newspaper if he takes the time and trouble to look carefully through its columns, will probably find half a dozen statements tacked on to the foot of reading notices about proprietary articles. Note this fact. In each and every instance as far as Janesville is concerned, as far as the reader's knowledge of the party is concerned he might just as well live in the moon. Make another note of this. The only remedy on the market which gives testimony at home, local proof in every town and city in the Union, to back up its claims, is Doan's Kidney Pills. They all try it but they cannot do it. Why they are unable to do it can safely be left with the reader to draw his own conclusions. Here is Janesville proof for Janesville readers.

Mr. Geo. Pratt, of 261 S. Main St., salesman at Brown Bros. Shoe store, says: "I feel that I can guarantee Doan's Kidney Pills for curing kidney complaint. I was subject to it for several years, had a doctor treat me for quite awhile, and as long as I took the medicine I was helped, but as soon as I quit the trouble returned. I took other remedies, but without being benefited. Finally learning about Doan's Kidney Pills I procured them at the People's Drug Co's. store and took them. They cured me. My symptoms were mostly backache, the kidney secretions contained sediment and were too frequent in action. You are welcome to use my name as one who recommends Doan's Kidney Pills, and I shall be glad to speak a good word for them at all times."

# ONLY ONE CURE FOR SCROFULA.

S. S. S. is the Only  
Remedy Equal to this  
Obstinate Disease.

There are dozens of remedies recommended for Scrofula, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scrofula is one of the most obstinate, deep-seated blood diseases, and is beyond the reach of the many so-called purifiers and tonics because something more than a mere tonic is required. S. S. S. is equal to any blood trouble, and never fails to cure Scrofula, because it goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which Scrofula surely leads should impress upon those afflicted with it the vital importance of wasting no time upon treatment which can not possibly effect a cure. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary.

Mr. H. E. Thompson, of Milledgeville, Ga., writes: "A bad case of Scrofula broke out on the glands of my neck, which had to be lanced and caused me much suffering. I was treated for a long while, but the physicians were unable to cure me, and my condition was as bad as when I began their treatment. Many blood remedies were used, but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return." Swift's Specific—

## S. S. S. FOR THE BLOOD

—is the only remedy which can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all sufferers from blood troubles can be promptly cured, instead of enduring years of suffering which gradually but surely undermines the constitution. S. S. S. is guaranteed purely vegetable, and never fails to cure Scrofula, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Boils, Tetter, Pimples, Sores, Ulcers, etc. Insist upon S. S. S.; nothing can take its place. Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

#### TO WAKE AT A CERTAIN HOUR.

Processor by Which the Mind Becomes an Alarm Clock.

One of the most interesting phases connected with sleep is that in which a deformation, formed overnight, that one should wake at a certain hour, acts true to the appointed time, says Harper's Magazine. In certain instances with which I am acquainted the idea acts perfectly; in others, it acts occasionally, and in other cases again, it fails completely. The explanation of this habit depends on what one may term a "dominant idea," or an indee fixe, as the French call it. There is something akin in this waking notion to the "dominant idea" with which a hypnotist may impress his facile subject. If we substitute for the hypnotist the individual himself, or, mayhap, the idea of the friend who has been impressing upon him the necessity for sounding the reveille at a given hour in the morning, we can discern the rationale of the action with a fair degree of clearness. The dominant idea in the shape of the necessity for awaking at a certain time is impressed on the brain, and is probably transmitted to those automatic or lower centers which rule our mechanical acts, which are responsible for the visions of the night, and which are capable of carrying out, either in the entire absence of consciousness or in the exercise of a subconscious condition, many complex actions. Through the hours of sleep the dominant idea remains impressed on these lower centers. The head of the business sleeps on while the night watchman is awake, and so prompt to the time, or shortly after it, the slumbering brain is awakened to the full measure of its activity.

#### One Leaf from God's Work.

A Chilian, about five years ago, found in a large pile of rubbish a leaf of the New Testament; the reading of it inspired in his mind a longing for the complete Bible. He heard of one that could be bought for ten dollars, and at once began to save up money to buy it. One day a colporteur passed his house, saw the door partly open, thrust in a Bible, and offered it for twenty cents. It was eagerly bought, and so diligently read that a body of Christians, numbering about fifty, was formed. When the missionaries came to look for a suitable location for beginning their work they found this band of Christians awaiting them.
